ERASMUS DAY 12TH OCTOBER 2018

LICEO TELESIO

COSENZA ITALIA

Today a group of students from Liceo Classico B. Telesio, Cosenza Italy, has celebrated the Erasmus Day presenting to their peers, in many open classes, their experience of hosting foreign students and being hosted by them within the project *Creative Teachers and Students*. They have shown videos and pictures, they gave talks on their Erasmus experience, printing and showing pictures and logos, but also creating a new event to spread and exalt the way Erasmus has changed their views about the world, breaking down prejudices and mental barriers concerning culture, religion and habits. “It was like being in another Italian city...the only odd thing was the fact we were communicating in English ... but truly ...I felt as if I were at home!” said Ludovico Rodi 4B, while explaining to his peers how great was his experience in Kavala, Greece during his mobility.

He also introduced the concept of 'Xenia' in ancient Greece. "Zeus is sometimes called **Zeus Xenios**. As protector of guests, he embodies the religious necessity of welcoming strangers" he said. Another student Francesca Granata in her video full of emotions, said that she is still wondering how she felt much more open-minded and no more shy as she used to be before the Erasmus exchange.

We would like to thank, for such a beautiful school day, our great team of Erasmus students - Maria Sole, Alessia, Marta, Maria Cristina, Chiara, Daniele, Ludovico, Francesca, Pasquale and Claudia - whose enthusiasm has 'contaminated' us, increasing our motivation as teachers. Thanx 'ragazzi'!

Catia Mele and Dino Mancuso
